DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on Oct. 4, 2004 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent No. 6,744,270 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Information Disclosure Statement

The examiner will like to note to the applicant that the cross-references on PTO-1449 have been provided by the examiner on PTO-892 mailed on June 30, 2004.

Allowable Subject Matter

2. Claims 1-22 are allowed over the prior art.
3. The following is an examiner's statement of reasons for allowance: regarding claim 1, the primary reason for the allowance of the claim is due to the filing of a terminal disclaimer shown above. Since claims 2-16 depend from claim 1, they also considered containing allowable subjected matter.
4. Regarding claim 17, the primary reason for the allowance of the claim is due to the amendment filed on Oct. 4, 2004, which includes a fluid heater being located within a test system and located external to a temperature-controlled platform between a fluid source and the platform for the purpose of heating the fluid from the fluid source before it enters the platform. Since claims 18-22 depend from claim 17, they also considered containing allowable subjected matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
